Feedback analysis (Curriculum) Report 2021-2022

In the 2021-2022 session, feedback has been taken from the **students, teachers, alumni and the employer**. A **special five-point scale feedback form** was developed on curriculum. **265 students, 37 teachers, 101 alumni and 07 employers** have submitted their responses regarding curriculum. The obtained results have been analyzed. **Analysis report of students** explores that on an average 48.5% students strongly agree, 25.7% agree, 16.7 % are neutral, 4.7 % students disagree and 4.4% strongly disagree with different aspect of current course content of syllabus. In one question, suggestions were also invited by students. Students suggested that there should be more focus on practical knowledge, communication, management and presentation skills and there is a need to lessen the syllabus according to semester. From the **analysis report of teachers** it is observed that majority of teachers agree that current syllabus meet the future requirements of learning industry. They believed that experiments, assignment and projects are beneficial in increasing the subject knowledge of students. The analysis depicts that average 55.2% teachers are satisfied with prescribed syllabus. Also recurring suggestions from teachers include: more exposure in practical field, general knowledge and aptitude, Intellectual Property Rights, communication and management skills, health hygiene and awareness and field visit for future concern. **The analysis of Alumni** feedback shows that on an average 49.5% alumni strongly agree and 24.6% agree that curriculum is helpful in present competitive environment and applicable in future prospects whereas 7.8% and 7.5% strongly disagree and disagree with different aspects of curriculum. Some suggestions given by Alumni include "Need to improve computer skills, put more efforts to improve overall personality of students, interactive communication to tackle real life situation, focus on practical knowledge, focus on knowledge regarding future opportunities, need to upgrade syllabus". **The analysis of Employer** feedback shows that on an average 48.2% employers strongly agree, 7.2% agree, 25 % are neutral, and 19.7 % employers disagree with different aspect of curriculum in enhancing the employability in current scenario. Employers suggested that the Education should not only be knowledgeable but should be job oriented, competitive, more focus on use of technology. There is a need to introduce soft skills and more skill oriented courses with focus on communication.
