

Student Survey Report

Result and Analysis (2016-2017)

In the session 2016-2017 feedback Performa filled by the students. The number of the students fill the forms are given in the table below

B.SC	B.SC(F.D)	B.COM	BCA	ARTS	M.SC	M.A	M.COM
80	2	66	11	76	4	27	10

Form included 12 questions related to college.

10 questions were multiple choices and from these choices they have to choose one. Best answers have been in descending order.

1 question about their memorable moment in college.

1 question was about some suggestions for improvement.

Method:

For reaching to a definite answer the mean and percentage mean score of every question has been calculated. If every student choose "a" i.e. gives the highest rank to the question mean score and percentage mean score will be 3.0 or 5.0 and 100 respectively. Therefore, it can be concluded that mean score nearer to 3.0 or 5.0 means the college is doing well in the opinion of students.

This time an attempt has been made to put mean score and mean percentage score of every question by students of all the faculties i.e. Arts, Commerce and science on a single sheet, so that comparison can be made easily.

Analysis of different questions of feedback performa's

- In first question mean score range lies between 2.8 to 3. So, according to this survey most of the students of our college feel proud to be associated with AKMV.
